## An Upright Growing or Bush Verbena

56785. Verbena Hybrids. (See illustration on page 6 of our large general catalog.) We are pleased in our ability to offer this Bush Verbena of upright growth. It fills a long felt need in the garden. The Verbena is one of the most beautiful of flowers. Is always a robust grower. It produces flowers in great profusion. Should be in every garden. The wonderful new Hybrid grows about 18 inches tall and has an Auricula-eyed flower borne on long stems suitable for cutting. Also pot and window box culture.

56785. Pkt. 35c; 3 for \$1.00. Postpaid.

## Kochia That Produce Bushes All the Same Height and Size

53470. Christmas Kochia Trichophylla Childs. (See illustration on page 6 of our large general catalog.) We are the original Hybridizers and introducers of this marvelous hedge and border bush plant. Nothing up to the present time takes its place or fills the same need. It is the only plant that can be sown from seed and in a few weeks (even the poorest kind of soil) produce a fine symmetrical bush of unusual uniform evenness in size and shape.

53470. Pkt. 10c; 3 for 25c. Postpaid.

## Sensation—The Aristocrat of the Petunias

54700. (See illustration opposite.) This is the richest and most beautiful royal-purple Petunia in the world. No other Petunia has the sheen and velvet texture that is to be found in Sensation. It has all the requisites for a desirable garden variety. It is a robust grower, stands grief. It literally blooms its head off. Just a wealth of color from early summer until freeze up.

54700. Pkt. 50c; 3 for \$1.25. Postpaid.

## Introducing the Improved New Aster

50440. Heart of France. (See illustration opposite.) In this Improved Aster we are pleased to offer the largest flowering Aster of the deep red colors. Aside from its immensity in size it is the most beautiful ruby-red. Although it deepens in intensity with age it is the most remarkable color to the very last.

The changeable glow and sheen is very fascinating. The texture is of warmest velvety appearance. The light effects indoors or out are exceedingly attractive. Grows 24 inches high, branching out and blooming in profusion from September to freeze up.

50440. Pkt. 35c; 2 for 60c. Postpaid.

## Aquilegia That are Larger and Better

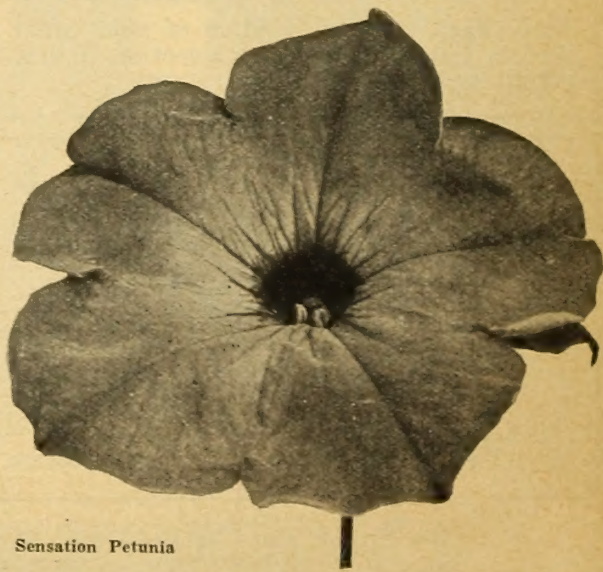

50210. Special Strain Long Spurred Hybrids. (See illustration on page 5 of our large general catalog.) Something new, something better in Aquilegia. This old favorite that we all love so well would be hard to recognize in this new strain, Long Spurred Hybrid. It is so vastly improved in every way that it resembles a new creation. Even the color tones are embellished to the most delightful hues.

50210. Pkt. 50c; 3 for \$1.35. Postpaid.

## Blue Lace—A Cheerful Exquisite Flower

52490. Didiscus Coeruleus. (See illustration on page 5 of our large general catalog.) Unquestionably one of the most beautiful flowers ever introduced. The soft sky blue color is almost beyond description. It is such a dainty, exquisite rare blue that it is immediately noticeable. No other flower has more grace, poise or form. Resembles Queen Anne Lace but the florets are considerably larger and of a rare blue color.

52490. Pkt. 20c; 2 for 35c. Postpaid.

## Delphiniums That You Will Point to With Pride

52180. Bromfield's Private Estate Hybrids. (See our large general catalog for illustration.) The finest strain of Delphiniums ever offered. Nor can this particular type be purchased elsewhere. A distinct selection of our own. It is something better.

The strain exceeds in beauty and immensity any Delphinium before introduced. We predict that it will supersede all the older sorts.

With each additional year it increases in beauty of formation, in productiveness of bloom and vigourousness.

10880. Plants each 50c; 10 for \$4.50. Postpaid.

## Santa Barbara Poppy

55100. Santa Barbara. (See our large general catalog for illustration.) This much improved Giant Yellow Poppy is in our opinion so supremely good we feel we must pass it along to our friends to enjoy. The flowers are immense in size, frequently 3 to 4 inches across, on erect strong stems, and is splendid for cutting and keeping qualities. Blooms in great profusion from the middle of July until frost. Grows about 2 feet high and especially suitable for beds and borders. Very attractive and showy.

## An Everblooming Amaryllis

5020. (See our large general catalog for illustration.) This introduction of our own is a plant and flower of incomparable magnificence. The most extravagant praises would not do it justice. It was the wonder and the awe of all who saw the International Flower Show display. As a pot plant for the house it is unexcelled. Free and easy grower.

The flower stalks are about 2 feet high and bear from three to five exquisitely beautiful blooms of the brightest and most striking orange-salmon color ever seen in any flower.

50150. Seed. (Blooms within a year.) Pkt. 50c.

Everblooming Sweet William

Private Estates Delphinium

## Charming Double Begonia Vernon Hybrid

15230. (See our large general catalog for illustration.) Produces more profusion of double flowers than any other Begonia or any other kind of plant. Especially recommended for outdoor use. ## Fountain Cyperus

15900. (See our large general catalog for illustration.) Although it thrives in wet, damp and moist places it also flourishes under the natural conditions of other plants. The graceful triangular stems spread out into a beautiful plant with great heads of thread-like green leaves that sway back and forth in the smallest breeze, giving it an effect like a playing water fountain (hence its name).

15900. Each 50c; 10 for \$4.50. Postpaid.

## Sweet William That Blooms All Season

56555. Childs' Everblooming. (See our large general catalog for illustration.) This is one of the finest real good things we have to offer. It will please and satisfy you. The flowers are larger in huge cluster with colors that are exceedingly beautiful and varied, ranging from pure white to rich red. Many of the flowers are ringed and spotted creating a most novel and fascinating effect. We have counted as many as seventy-four large blossoms on one plant. It is perfectly hardy and will do well in most any soil.

## Our Introduction Storm King Fuchsia Considerably Improved

15920. (See our large general catalog for illustration.) Claimed by many to be the most popular plant in America. It is one of our largest sellers (we have sold as many as 200,000 in one year). This variety is a Childs Introduction, being originally brought out by us. Each succeeding year we have continued our efforts to improve it, until today it is a vastly improved type compared to the old original variety we first offered. It is rich in the greenness of its foliage.

A double white, perpetual blooming weeping Fuchsia. Its graceful, weeping habit, and beautiful flowers, more freely borne than those of any other sort, make the most valuable of Fuchsias. It is always in bloom. The buds, for two weeks before they expand, are balls of glowing scarlet-crimson. When expanded the enormous double flowers are almost pure white, capped by a calyx of glowing scarlet.
